These are some of the most popular upgrades people choose to customise on their New Age Caravan, if you have something else in mind there we have plenty more options up our sleeves. So speak to a sales person for a full run down on ways to customise your future dream caravan!

Due to logistics and product availability, items and technical specifications in this brochure can be changed without notice, please check with your local Dealership for the most up to date information. Edition 2 June 2025. Please note that colours depicted in this brochure are for illustrative purposes only and may vary due to printing processes or screen settings. Colour options are subject to availability at the time of production and may differ from those shown. Additional colours may be available—please consult your local dealership for the most up-to-date options and to explore our full range of customisation choices.

ESCAPE RANGE

Introducing the Escape Range

The Escape is your perfect entry into the world of caravanning. Designed for touring and on-road adventures, this range features four practical layouts, from compact 15-foot models to spacious 21-foot options—ideal for holiday parks with the flexibility for the occasional night off-grid.

Proudly 100% Australian made and backed by a 3-year warranty, every Escape van comes equipped with a battery and solar panel to support your travels. Whether you're starting your journey or simply seeking comfort and reliability on the road, the Escape is built to get you moving.

EXPEDITION RANGE

Introducing the Expedition Range

The Expedition is New Age Caravans' toughest range yet, built for travellers ready to tackle off-road tracks and remote locations. With XT independent suspension, extra ground clearance and added underbody protection, it's made for confident towing beyond the blacktop.

Available in select Manta Ray and Road Owl layouts, each model includes dual lithium batteries, twin solar panels and bolted furniture for extra strength. Proudly Australian made and backed by a 3-year warranty, the Expedition is your reliable home off the beaten path.

Standard Features

Toolbox

Dual slider slide-out toolbox—perfect setup for your BBQ or generator, with dedicated space for gas bottles on the driver's side for easy access and organisation.

Front Light Bar

Front light bar mounted for powerful illumination—perfect for lighting up the area in front of the caravan during setup or nighttime activities.

Dometic Slideout kitchen

Dometic slide-out kitchen—compact, convenient, and fully equipped for outdoor cooking, with everything you need right at your fingertips.

CruiseMaster XT Airbag Suspension

CruiseMaster XT Airbag Suspension—designed for a smoother, more controlled ride across all terrains, with adjustable height for easy leveling and added comfort.

BIG RED

Introducing the Big Red

The Big Red is a luxury tourer built for travellers who seek a modern interior that truly functions and feels like home wherever the tarmac ends. Strategically fitted slide-outs radically reshape the Big Red interiors delivering a genuine in-home cinema experience, ceiling-to-floor cabinets and generous club lounge comfort at camp. Designed for bitumen travels, the Big Red packs in an astonishing amount of living for a surprisingly conservative tow weight.

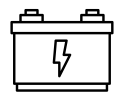

Proudly Australian made, the Big Red is your next campsite castle.

5KW Off-Grid High Power System

What are the key benefits of moving from a 12V to a 48V system ?

- 1 Higher Efficiency: Lower current reduces power losses.
- 2 Lighter, Smaller Cables: Thinner wires reduce costs and weight.
- 3 More Power Capacity: Supports high-demand applications easily.
- 4 Enhanced Safety: Lower risk of overheating and fire hazards.
- 5 Better Battery Life: Reduced stress extends battery lifespan.
- 6 Improved Motor Performance: Supports efficient, high-power motors.
- 7 Higher System Reliability: Reduced stress on components boosts durability.
- 8 Compatibility with Solar Systems: Efficient with solar and hybrid setups.
- 9 Scalability: A 48V BMS can be easily scaled to manage larger battery packs by connecting multiple modules.

ECOFLOW COMPONENTS

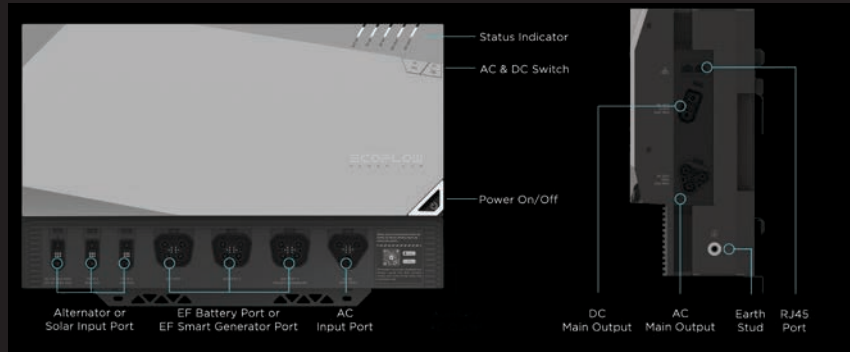

REMOTE KEYPAD

- 7 Inch Full Colour IPS Touch Screen
- Multi Display screen incorporating Water Tank Sensors through the Powerlink
- Communications RJ45CAN
- Bluetooth and Wi-Fi compatible

AC/DC SMART DISTRIBUTION PANEL

- DC Main Input 12V @ 70 Amps
- AC Main Input 240V @ 30Amps
- DC Output 6 x Controllable via keypad or App & 6 Regular Circuits
- AC Output 6 Outputs @ 10amps
- Real Time Load Data on Each DC & AC Circuits

POWER HUB

- 3600w Pure Sinewave Inverter (7200 Peak)
- AC Input 240V Max 15Amps, Max 3000W (Adjustable)
- AC Main Output 240V
- AC Inverter Output 3600W Max (7200W Peak)
- DC Main Output 13.6V @ 70Amps
- Input Port 1 – DC to DC charger 13-60V 30 – 50Amps (360W – 600W) Adjustable
- Input Port 2 & 3 – Solar Panels 13-60V 30Amps Max 1600watt
- 3 x Battery Inputs @ 5kWh Each, System expandable to 15kWh
- Can mix 2kWh & 5kWh batteries when expanding power storage
- Bluetooth and Wi-Fi compatible
- Warranty 5 Years

48V 100AH LFP BATTERY 5KW

- Chemistry – Lithium Iron Phosphate
- Built in BMS & LCD Status Indicator
- Advanced Battery Safety Protections
- Auto Heating for Cold Environments
- Built in 125Amp Fuse
- Net Weight 40.6kg
- Equivalent to 415Amp 12V Battery
- Warranty 5 Years

ECOFLOW APP

- Intuitive Interface
- Read Every Load usage
- Optimise Energy usage
- Configure Entire system
- Review Consumption History
