## RV MEDIA LED HIGH DEFINITION 12/24/240V TV/DVD/USB/PVR (FOR USE IN AUSTRALIA ONLY)

LED High Definition TVs featuring an in-built DVD player and flexible 12V, 24V or 240V operation. Can be wall mounted for flexible use in or out of the RV. These TVs are designed for RV use and have added protection against Australia's environmental extremes such as humidity and salt air, backed up with a national 2 year warranty.

### USB PVR AND MEDIA PLAYER

By connecting a portable USB thumb drive or hard drive to this TV, you can record shows on Digital TV (PVR function) plus pause and replay Live TV (Time Shift). The features don't stop there! You can also play movies and TV shows from USB (using popular formats like AVI, MP4) plus listen to your favourite MP3 or WMA music tracks: view photos using the in-built photo viewer, or even text (.txt).

### IN-BUILT DVD PLAYER

Watching movies couldn't be easier using RV Media's in-built DVD player. Not only can you watch DVDs, you can also listen to audio CDs. Both the TV and DVD functions are controlled conveniently by the same remote control. RV Media TVs also feature co-axial digital output for optional connection to surround sound systems and a headphone output so you can watch movies without disturbing others.

### 12/24/240V OPERATION

Included with this TV is a 2 metre 12/24V accessory plug power adaptor. This allows connection in most vehicles and ensures that RV Media TVs can easily cope with the voltage fluctuations found in today's modern caravans and RVs that use a combination of batteries, chargers and solar. A 240 V power supply is also included for use at home or utilising the RVs 240V supply.

### ADDITIONAL FEATURES:

- Super slim and light design
- Long range HD DVD-T digital TV tuner
- USB PVR function with time shift

## JACK ANTENNA ROOF MOUNTED BUILT IN SIGNAL METER

### WIDER RECEPTION RANGE

Less directional than traditional RV antennas to provide broader reception coverage.

### GREATLY IMPROVED UHF RECEPTION

Superior reception of UHF signals where many of the new Digital TV channels are broadcast, also offers great reception of remaining VHF channels.

### BUILT IN AMPLIFIER

Enhance weak signals in fringe areas for improved reception. Flush wall mount power switch with cable/antenna inputs and 2 TV outputs available.

### COMPACT, AERODYNAMIC DESIGN

Aerodynamic mount offers superior wind resistance, is 70% smaller and requires less roof space than traditional RV antennas.

### BUILT-IN DIGITAL SIGNAL METER

Point the antenna for maximum reception before scanning for channels to simplify setup and eliminate frustration.

### NO CRANK HANDLE

Fixed height requires no cranking up or down. No need to remember to stow antenna before driving away.

### EFFORTLESS ANTENNA ROTATION

Easily rotate antenna with two fingers.

### EASY TO INSTALL

Works with varying roof thicknesses (32mm to 114mm) and easily replaces existing antennas.

### FULL 360° ROTATION

No reception dead-spot due to rotational limit commonly found with other antennas.
